Dear Mr. Sobel,

If you were with a lawyers' constitutional rights committee in New Orleans in 1968 I remember that very pleasant lunch at Kolb's. With appreciation. That trip I had very few real meals!

You are quite right about the value of any Vaughn. And they know it!

In this letter to David Burnham I raise a few other considerations that I believe are missing from the little dialogue there has been.

Sincerely,

A handwritten signature in cursive script, appearing to read "David Burnham", is written over the "Sincerely," line.
